

Summary of Proposed Changes to CLPNPEI bylaws – June 26, 2024

SECTION 12 – FEES

Proposed Bylaw Amendments

Section 12 – Fees

Section 12.1.5

- Remove the pronouns **his or her** to the

Section 12.1.8

- Provide language describing the Special Registration

Section 12.1.10 (Schedule of Fees and Deadlines)

Context

*In March 2020, Council determined that for the registration year 2021-2022 the certificate of registration fee would increase to \$410 and for the registration year 2022-2023 the certificate of registration fee would increase to \$450.00. The schedule of fees and deadlines has amendments to remove references that reflect the previous two-year fee increment plan.

12.1.10 a)

- Initial certificate of registration fee has been updated to remove relevant dates which reflected a previous two - year fee increment plan.
- Initial Certificate of Registration Fee (Partial Year) has been increased from \$175.00 to \$225.00. The rationale that was used to initially determine the cost of the partial year registration was 50% of the cost of a full year certificate of registration. The initial certificate of registration fee has increased from \$350.00 to \$450.00, and the initial certificate of registration fee (partial year) should be increased to \$225.00 to reflect the increase.

12.1.10 b)

- Renewal of certificate of registration fee has been updated to remove relevant dates which reflected a previous two - year fee increment plan.

12.1.10 e)

- The Unauthorized Practice penalty fee to be discontinued.

12.1.10 f)

- Remove reference to “**out of province**” in favor of the broad term, application fee.

12.1.10 g)

- The Credential Assessment Fee to be discontinued.

12.1.10 i)

- The Canadian Practical Nurse Registration Examination (CPNRE) fee has been updated to remove relevant dates which reflected an increase to the exam that was effective January 2022.
- The CPNRE Late Registration Penalty Fee to be discontinued. This fee was established to ensure timely registration when the CPNRE offered limited times per year. The CPNRE is now offered through writing windows every second month. This fee is no longer necessary.

12.1.10 j)

- Graduate practical nurse certificate of registration fee has been updated to remove relevant dates which reflected a previous two - year fee increment plan.
- Graduate practical nurse certificate of registration (partial year) fee has been increased from \$175.00 to \$225.00. The rationale that was used to initially determine the cost of the graduate practical nurse (partial year) registration was 50% of the cost of a full year certificate of registration. The initial certificate of registration fee has increased from \$350.00 to \$450.00, and the initial certificate of registration fee (partial year) should be increased to \$225.00 to reflect the increase.

12.1.10 k)

Establish new special certificate of registration fee of \$75.00. The rationale used to determine the \$75.00 fee is that it is equivalent to one month of a partial year registration fee of \$225.00.
